

BOOST THE ECONOMY

The forestry industry is worth £2bn every year to the UK economy

TACKLE CLIMATE CHANGE

Growing trees soak up carbon and lock that away in wood products

PROVIDE PLACES FOR WILDLIFE

Forests are home for wildlife, such as Red squirrels, Goshawks and many other rare species

BUILD NEW HOMES

Timber provides warm, attractive and energy efficient homes to tackle the housing crisis

CREATE RURAL JOBS

Forestry supports 80,000 UK jobs, often in rural areas with few other employment opportunities

A MORE EFFECTIVE FORESTRY POLICY WILL

REDUCE FLOOD RISK

Upland tree planting can reduce flood risks in communities downstream
